*According to FEIBP regulations

** Not all products per category are available in all colours noted on the colour wheel

When ordering our products you will notice there are variations for certain products. These are explained by the following key:

AM: Anti-Microbial

MDX: Metal detectable and X-ray visible

RES: Resin-Set DRS® Brushware

When ordering our colour-coded products, please use the colour notation below (listed in brackets next to relevant colour) to denote which colour you would like to purchase. On the majority of our hygiene products, add the colour notation to the end of the product code. For example, if you wish to purchase a Yellow B861, simply add a Y to the end of the code as so: B861Y.

Please note: Our Resin-Set DRS® and Colour-Coded MDX products will need the colour notation before the RES or MDX notation. For example, B861YRES, or B861YMDX. Our Total MDX (dark blue) does not need a colour reference.

	Blue (B)		Tangerine (T)		Anti-Microbial Purple (P)
	Black (BLK)		Violet (V)		MDX Dark Blue †
	Green (G)		White (W)		
	Red (R)		Yellow (Y)		

† Colour notation already within product code
